	White Sucker	Up to 10	8 ounces per week (1 meal/week)
	Wabash River	Blue Sucker	21+
Freshwater Drum		Up to 12	8 ounces per week (1 meal/week)
White Bass		11+	0

*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

**The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
