	<a href="#">Longear Sunfish</a>	Up to 6	8 ounces per week (1 meal/week)
<b>Sugar Creek (Middle Wabash River Basin)</b> I-74 to S.R. 32	ALL SPECIES	ALL	0
<b>Sugar Creek (Middle Wabash River Basin)</b> S.R. 32 to Parke County including stream reaches along Shades and Turkey Run State Parks	ALL SPECIES	ALL	0
	<a href="#">Channel Catfish</a>	Up to 13	2 ounces per week (1 meal/month)
	<a href="#">Rock Bass</a>	ALL	2 ounces per week (1 meal/month)
	<a href="#">Shorthead Redhorse</a>	Up to 13	2 ounces per week (1 meal/month)

\*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

\*\*The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
