

Angling Indiana - 2009 FISH CONSUMPTION ADVISORY

Warren County - advice for sensitive populations*

| Waterbody | Fish Species | Fish Length (inches) | Maximum Amount for Adults to Eat** (Meals) |
|--|------------------------------------|----------------------|--|
| All Indiana Rivers and Streams (unless specified) | Carp | ALL | 0 |
| Big Pine Creek | Black Redhorse | Up to 13 | 8 ounces per week (1 meal/week) |
| | Flathead Catfish | Up to 10 | 8 ounces per week (1 meal/week) |
| | Longear Sunfish | Up to 5 | 8 ounces per week (1 meal/week) |
| | Smallmouth Bass | 11+ | 0 |
| Wabash River | Bigmouth Buffalo | 18+ | 0 |
| | Blue Sucker | 21+ | 0 |
| | Carpsuckers | ALL | 0 |
| | Channel Catfish | ALL | 0 |
| | Flathead Catfish | 21+ | 0 |
| | Paddlefish | 34+ | 0 |
| | Sauger | 13+ | 0 |
| | Smallmouth Buffalo | ALL | 0 |

*Sensitive populations include: pregnant or nursing women, women that will become pregnant, and children under 6 years of age. These consumers should use caution when eating some types of sportfish.

**The maximum amount for adults to eat is determined by fishing location, species and fish length. For instance, if you eat the maximum amount of one species during a week, you should not eat any other fish which has a consumption limitation until the following week. Example - if you eat the limit (4 ounces) of a 20 inch long Carp from the Easy Catch River, then you should not eat any other sportfish from the list until the following week.
